# Tingsryd Resort

*Där livet är härligt*

## FROM outhouse TO 4-STAR RESORT

In the early 60s, the school in Tingsryd got new toilets. The old toilet facility was moved down to the bathing area in Mårdslycke and converted into a café, kiosk and reception. This was the start of Mårdslyckesands Camping. It was a small campsite that was only open for two summer months.

### **The world's best job for 50 years**

I started working at Mårdslyckesands Camping in 1972 together with my siblings. It was a nice and fantastically fun summer job with lovely guests, customers and tourists. The campsite grew, the season was extended and after several years it was possible to make a living from the business. I had got a dream job and could invest everything from the bottom of my heart in developing the hospitality in Mårdslyckesand.

After having leased the campsite for 30 years from Tingsryd Municipality, my wife Ladda and I were able to buy the campsite from Tingsryd Municipality.

The campsite was in great need of renovation. We started with major investments over a 20-year long period and changed the name from Mårdslyckesands Camping to Tingsryds Resort. I am grateful that together with Ladda and our two girls I have been able to work and develop the business in this beautiful place with wonderful view of Lake Tiken.

After 50 years in Mårdslycke, I am happy and grateful to all the outstanding employees during these years who have helped create a thriving tourist destination in Mårdslycke.

This also applies to all our loyal tourists, guests, residents and friends who have supported us. You are our very best ambassadors.

A big thank you for all the good collaborations with our successful associations and companies in Tingsryd.

The tourism industry in the municipality faces a very bright future and will grow strongly in the coming years. Now we hope that the detailed development plan for the Mårdslycke area will not take too long so that we can start with our future plans.

After 50 years, I will reduce my work at the reception and let our professional and knowledgeable employees take over. I get more time for the development of Tingsryd Resort. It is with enthusiasm and faith in the future that we look forward to more great seasons at Tingsryd Resort. What started 50 years ago in an outhouse!!!

Jan-Olof Colleén, VD

## **A climate-smart facility**

# **Tingsryd Resort's sustainability development**

Increase the use of environmentally friendly and sustainable methods in the operation of our facility and thereby reduce the total use of resources so that our facility generates as little environmental impact as possible. We want to contribute to a sustainable tourism industry and are undergoing a change towards a completely new climate-smart resort facility.

- planning a photovoltaic system
- 4 charging sockets for electric cars ready spring 2023
- uses LED lighting
- electric motors for our rental boats
- bought an electric car for our cleaners
- electric lawn mowers for our seasonal guests
- geothermal heating: three drilled holes for the service buildings and the restaurant building
- reduced water consumption for low-flush showers and taps with limited time
- lighting with motion detector in service buildings
- metering of electricity for our seasonal guests reduces electricity consumption
- minimize food waste in the restaurant, purchase of local ingredients
- We achieve environmental savings by marketing ourselves in the local market, it provides shorter travel routes and less CO2 emissions.

With offers and a good range of activities, experiences and a hospitality that corresponds to or if we exceed the guest's expectations, we get our guests to stay longer, there will be less km per guest night as well as minor cleaning and washing (cottages).

### **GOOD FOR BOTH RESIDENTS AND VISITORS**

Attractive places to visit are also attractive places to stay. To have visitors is nearly always an advantage for a place to offer a lot of different stores, restaurants and other services. Residents need to be aware that the supply at the site is dependent on visitors. We want to promote good interaction between residents and visitors.

# Visions for Tingsryd Res

## **ARENA POOL COTTAGES**

A new arena in the Mårdslycke area strengthens Tingsryd as a tourist destination and generates a significant increase in tourist visits. This creates conditions for Tingsryd Resort to make major investments in the future. By constructing a pool area, Tingsryd Resort can be developed into a 5-star campsite. This would have a great market

value as there are only sixteen 5-star campsites in Sweden. A unique and attractive area is created in Mårdslycke for tourists and municipal residents. Great conditions for organizing events, fairs, exhibitions, concerts, conferences, summer hockey school and public riding all year round.

## **PIR AESTHETIC LANDMARK IN TINGSRYD**

A pier with walking, cycling path and swimming lagoon would be an aesthetic landmark for Tingsryd. It creates a beautiful and unique connection for residents in the Mårdslycke area with a walkway and cycle path next to the center. You create good ice places on the pier. Fishing is a pleasant and exciting activity for tourists and local residents. A beautiful

walking path, atmospheric lighting out on the lake during dark evenings and the winter months.

You can create a "path of health" with walking paths in the Mårdslycke area and on the pier. Here you create an attractive walking path with wonderful views of the lake and soothing nature.

# ort, Mårdslyckeområdet

For us at Tingsryd Resort, holidays and recreation are the most important time, regardless of when it falls on the year. Our vision is to create a 5-star campsite by constantly developing and being at the forefront, but without our professional and skilled employees and our loyal guests, it would not have been possible.

Tingsryd Resort has developed from a traditional campsite to a full-fledged resort facility that attracts tourists and municipal residents all year round.

We want to offer a wide range of accommodation, food and activities of the highest quality and create additional attractive outdoor experiences in the Mårdslycke area.

We are optimistic about the future of the hospitality industry in Tingsryd. We had the best tourist year ever in 2021 and are aiming for a new record year in 2022. We have plans to build a holiday village south of bentlig camping and investigate the possibility of building a pool area.

A warm welcome to visit for an experience beyond the ordinary at our year-round open resort facility.

Jan-Olof & Ladda Colleen

## Shopping for all tastes

Tingsryd has shops with personal service. All within easy walking distance. Börjes Department Store and Ridshop are widely known with visiting customers from all over Sweden. There is free parking throughout the city center with plenty of parking spaces. Tingsryd has several attractive car dealers such as Carlqvist Bil with over 500 cars in stock but also motorhomes and caravans. There is also Liljas Bil and Autoverkstaden Tingsryd. Orthex (Hammarplast) factory sales with good prices and a large assortment of plastic items are well attended by customers during the summer.
